# International Projects & Development Consultancy

**We facilitate access to finance for your investments!**

We leverage national and international funding and credit mechanisms to provide effective access to finance. This is supported by strategic analysis, strong project design and expert guidance. We transform institutional investment and transformation objectives into projects aligned with national and international standards.

Within this framework, we oversee the end-to-end access-to-finance process through our comprehensive services.

- **Analysis of National and International Grant and Funding Calls**
- **Project Development and Application Management for Grant Calls**
- **Coordination of International Consortium Development and Partnership Processes**
- **Development of Tailored Project Action Plans and Financing Roadmaps for Institutions**
- **Preparation of Evaluations, Feasibility Studies, and Analyses for International Credit Mechanisms**
- **Reporting, Monitoring, and Project Management Support During the Project Implementation Phase**
- **Management of Application Processes for International Investment Loans**

# Our Vision for the Future

—● Transforming into a dynamic platform that delivers consultancy-based, service-integrated technology solutions

—● Enhancing the capability of SMEs to achieve sustainable growth and profitability

—● Further deepening interdisciplinary and integrated services

—● Developing innovative solutions that enhance both its own operational efficiency and that of its clients
